OF FPRESCHOOL CLASSROOM FURNISHMENT**

## BRAND INTRODUCTION

Guangzhou Moetry Amusement Equipment Co., Ltd, is a comprehensive enterprise of early childhood product integrating R&D, production, sales and service under the Happy Island Group(since 1987). It provides one-stop shopping for children furniture and kids playground equipment and overall solutions for early education centers, kindergartens, parent-child clubs, children's centers and children's parks etc.

Moetry has large modern production workshops, large exhibition halls and modern quality testing laboratories, covering an area of over 45, 000 square meters. The company has always adhered to the business policy of "integrity is capital, quality is life, innovation is power".

## OFFICE FACTORY

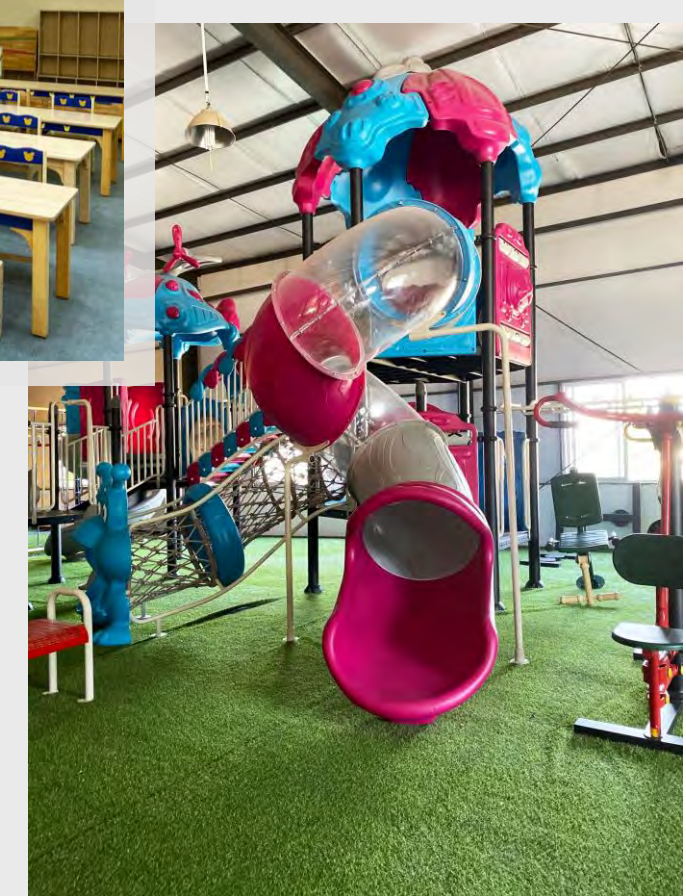

Based on the philosophy of "people-oriented, child first" , Moetry is committed to providing children around the world with safer, greener and more interesting space for children's activities, learning and growth.

## WORKSHOP SHOWROOM

Since its inception, it has been continuously improving its production process and product quality through independent innovation and the introduction of foreign advanced technology.

## QUALITY STANDARD

The company's products have passed international authoritative certifications like CE, ISO, TUV, GS, SASO etc, and domestic certifications like CCC, NSCC etc. The products are underwritten by the People's Insurance Company of China. The products are exported to more than 30 countries and regions on five continents. The quality of our products has been well received by our customers.

# MOETRY SERVICE

COMPLETE  
CLASSROOM FOR  
EARLY HEAD START

# ACTIVITY ROOM

In the activity room, the kids' sensory integration can be trained through their proprioception and tactile stimulating games. The activity promote the normal functioning of their visual, auditory, tactile and other function, improve children's academic performance, sport coordination and language function, open a new window for children's learning and improve the ability of learning. They could enjoy themselves in the area, at the same time, learn more skills when they communicate with others.

## ACTIVITY ROOM

我们用心为世界儿童打造安全有趣的活动环境

Safety during playtime is of utmost importance for little kids. Soft play creates the safest indoor play area. The durable, high-quality leatherette makes it possible for kids to jump, hop and balance to their heart's content without worrying at all. Apart from being fun, soft play is also beneficial for a child's fitness.

# KIDS LIBRARY

The reading room plays an important role in creating a high-quality early childhood learning experience that enriches language and vocabulary development. Reading can make children be calm and thoughtful. Some of the children prefer to spend their time reading quietly indoors rather than playing outdoors. We could offer you conventional or customized bookshelves and reading tables and chairs.

# ART & CRAFT ROOM

Children have natural creativity! To provide a large number of rich and diverse materials for children, satisfied with the characteristics of children like to play with, prefer to make their own work, so that they can make their own works in path work, clipping, folding and painting. Every child has a beautiful seed in their heart, so that they can carry out creative activities in a relaxed, free, happy, equal and democratic psychological environment, and release their creative potentials.

# DRAMATIC PLAY ROOM

The role play for children in different ages have different characteristics and levels. They will creatively imitate and reproduce the scenes and things observed in daily life. Through the role play in the game, we can use imagination and creativity to reflect personal life experience and promote children's personality and social development.

**DRAMATIC PLAY ROOM**

# SCIENCE ROOM

Childhood is a time period full of intense curiosity. Children have an immense desire to find out about their world and how it works. From the very youngest age they are observing and experimenting with their surroundings, whatever the aspects - colour and light, reason and result. natural materials and living things. Interesting and engaging science materials inspire questions that lead to meaningful learning.

SCIENCE ROOM

我们用心为世界儿童打造有教育意义的社交体验

## 寓教于乐

## IP内容

多元主题

颠覆传统

With the integration of interactive projections, traditional classrooms are upgraded, and smart classrooms are built to realize the natural interaction between people and the environment, promote children's personalized learning, understand scientific knowledge, and cultivate logical thinking skills .

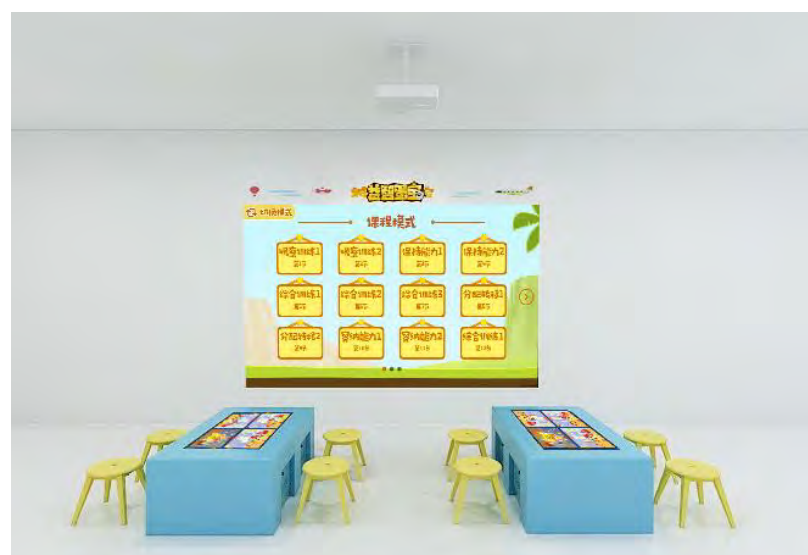

## Interactive Table

It is a digital entertainment and education product dedicated to the cultivation of sensory cognition and thinking creativity of preschool children. Children will interact with each other through the touch table. The product uses AR and multi-screen interactive technology to generate interesting animation scenes on the big screen.

The systematic content combines games and education to fully stimulate children's creative thinking and release their hands-on ability and creative nature!

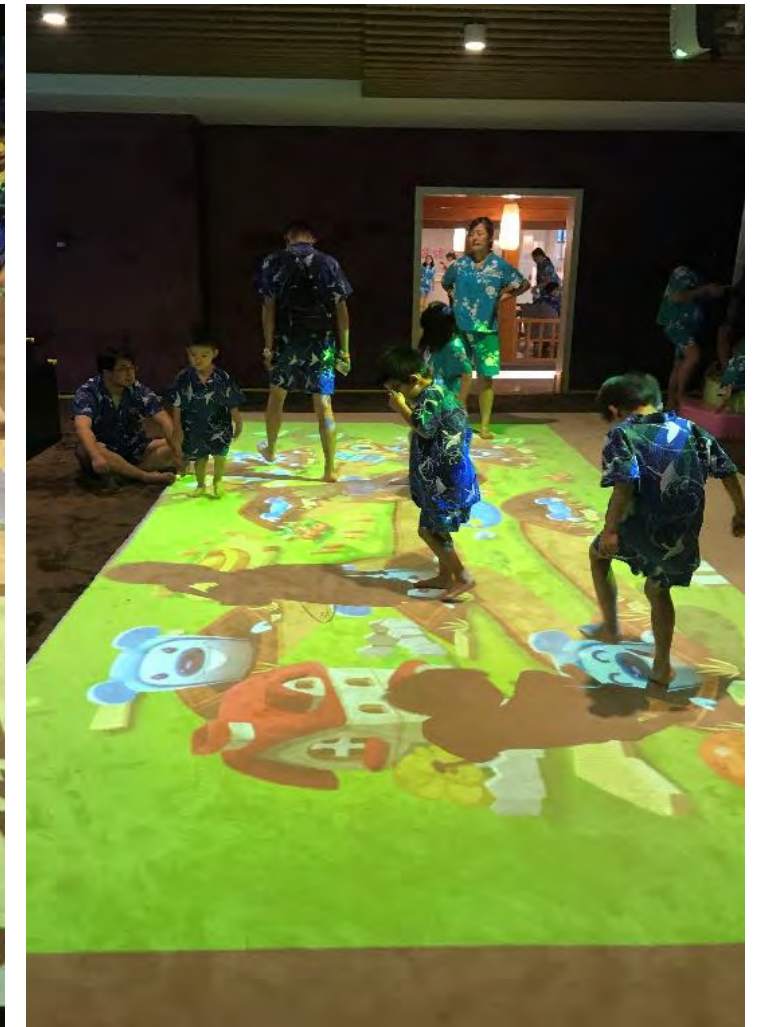

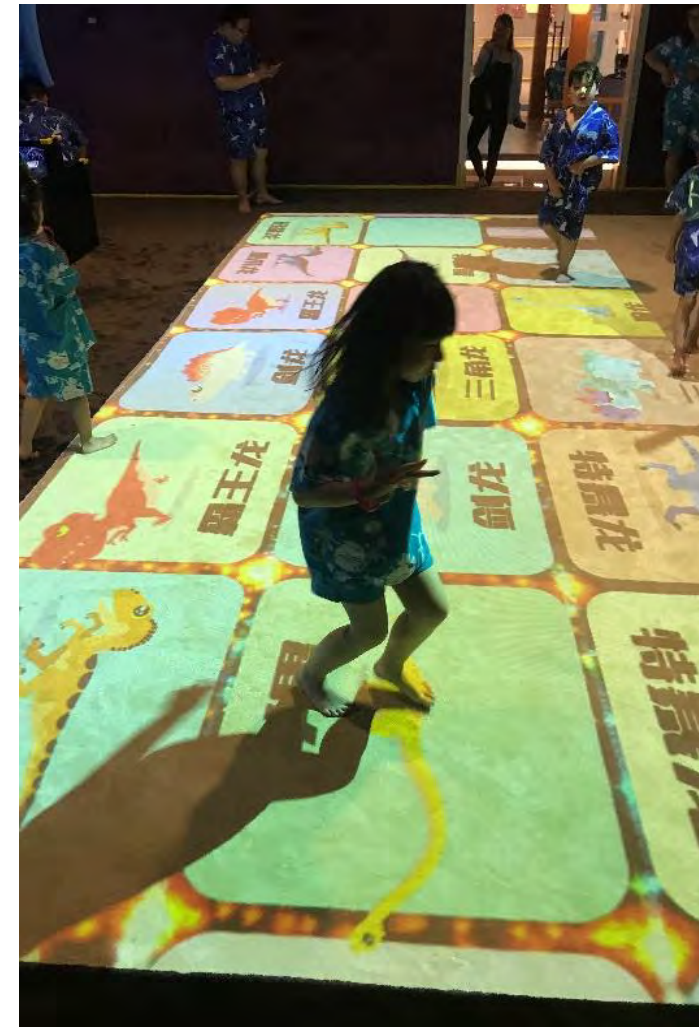

Wall Lab is a gamified interactive education product based on multi-touch technology. The product takes the low-structure education concept as the core, digitizes traditional wall games, and supports children to create freely through established props or hand-painted graffiti. The graphic structure guides elements such as water flow and marbles to form an interactive effect, allowing children to improve their hands-on ability, inquiry and creativity during exploration.

## Interactive Wall

Interactive Wall is a scene-based multimedia interactive product. Children interact with the theme on the wall through throwing to form a dynamic animation effect. Multiple themes and interesting interaction methods stimulate children's curiosity and interest in sports. At the same time, develop the body's coordination ability.

## Interactive Flooring

It is a scene-based multimedia interactive product. Toddlers will be placed in a specific situation, turning the real space into a fun-filled virtual interactive environment. Toddlers interact with the ground through sports such as kicking, walking, running, and jumping. To stimulate children's interest and curiosity, let children explore, learn and exercise in the game, learning and entertaining.

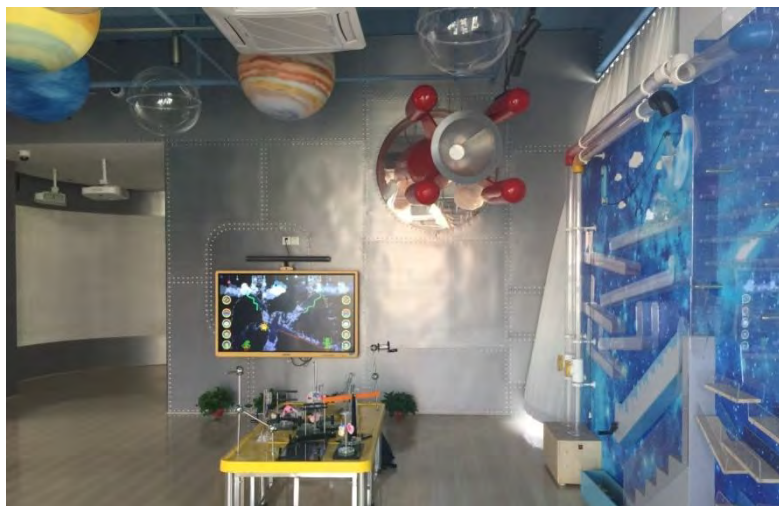

### AR Sand Play Table

AR Exploration Sand Table uses augmented reality (AR) technology to combine interactive projection and traditional sand table to make the entire sand table fully "live". The system can simulate changes in the natural environment such as volcanoes, rivers, and the four seasons of the year in the sand table area.

# MUSIC & DANCING ROOM

The kindergarten music room is as simple and generous as possible in color design. It can use the gradient color to make some adjustments to the overall color. In addition, a variety of teaching methods can be adopted to increase the enthusiasm of children to participate in. The teacher can use the melody of the music to make a deep impression on the children, but also let the children fully realize the charm of music.

# SLEEPING ROOM

When designing the rest room, what is the most important is the design and treatment of light, temperature, humidity, noise and air quality to ensure that the sleeping environment of the child is comfortable and quiet, and also to ensure the safety of the space, to create a "home" for the child.

# KIDS WASH ROOM

We have various choices, different styles of kids toilet, basin, mirror and other supporting facilities and the partition. Children aged 3-6 years old have weak gender awareness and can set up toilets for men and women. However, it should use reasonable space for reasonable partitioning. There should be partitions between men and women by 80-90cm partition walls to protect children's privacy, and gradually cultivate children's gender awareness.

# TEACHERS' OFFICE

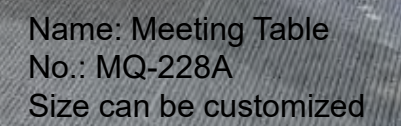

Simplicity and practicality are the characteristics of room decoration. The office is an office area. The pursuit of space simplicity is to abandon unnecessary vanity, not to mention some trivial office design elements. The most direct design reflects a kind of space and furniture. The comfortable working atmosphere gives the office space a kind of personality and tranquility. It does not require extra space partitions or excessive decorations.

TEACHERS' OFFICE

我们用心为世界儿童打造有教育意义的社交体验
